Micro String Stretcher

Yellowstone String Jig

used by pros and dealers worldwide for high quality compound, recurve and crossbow bowstrings up to 108" long.

- Strong and sturdy posts
- Thumb screws for easy adjustments
- Easy glide string post bushings prevent slide-off and stretch
- Removable posts, movable legs and string armatures
- Durable electroplated steel construction
- Tape measure included
- Comes with Stringmaking CD
- All components are replaceable

Archery Backstop Netting

Polyester material, white or green, with ultraviolet resistance. Standard size is 30 ft. x 10 ft. but can be custom made to any specified length. Grommets every 12" along the top for hanging. Comes with hanging assembly, cable, clips and tote bag for storage.

CAUTION: This netting must be hung loose and free- not tight; order a net length 20% longer than area to be covered. Must not be used with carbon arrows. It should never be used to protect people or property.

X-Wax Bowstring Wax

Super silicone formula; perfect for 452X and all other bowstrings. Scent free, water repellent and abrasion resistant. Excellent string penetration and protection. Capped twist dispenser; applicator included.

Also available: ML-6 Wax tube dispensers.

Bearpaw Serving Tool

Sturdy, rugged construction with smooth stainless steel guide rollers. Adjustable tension control, easy payout and string entry.

Also available:
Model 26
and Cavalier
Servers
