

BCY[®] Majic Serving

BCY[®] introduces a new serving material for Crossbows.

Similar to Majesty, MAJIC has shown high wear resistance, particularly as a center serving. Made from a compact braid of HMPE. Coated with an aerospace resin to improve durability.

Offered in black, in sizes 014", 030", and 035".

Available on standard Jig Spools.

- 014 - 150 yds • 030 - 60 yds
- 035 - 40 yds

¼ lb. spools and approx. ½ lb. spools

**MANUFACTURED
IN THE USA**
Some raw fibers are produced overseas

by Alien Fibers
